PART I.

Proceedings of the Government of His Highness the Maharaja of Mysore, Land Revenue, dated 8th February 1911.

READ—

Subject No. 87 of the Proceedings of the Representative Assembly of 1909 as to the framing of rules for alienated villages being taken over under Government management on the application of Inamdars.

2. Letter No. 11865, dated the 26th May 1910, from the Revenue Commissioner in Mysore, expressing it as his opinion that it would be impossible for Government to take under their management alienated villages whenever the holders thereof find themselves unable to manage them.

No. R. 4558-68—L. R. 384-09-3, DATED BANGALORE, 8TH FEBRUARY 1911.

ORDER THEREON.—Government are of opinion that there is much force in the representation that in order to promote the proper administration of Inam villages it is desirable to allow greater facilities than exist at present for their being brought under Government management, whenever the interests of Inamdars or of the raiyats or other circumstances render such a course expedient, and to restore the Inam villages to the respective owners after a few years of good and methodical management. The difficulties complained of are no doubt frequently the result of cumulative neglect on the part of Inamdars during a long series of years to take proper measures in time to recover their dues; but they are also due to a great extent to the absence of regular revenue rules and procedure, as in Government villages, which would enable the Inam villages to enjoy the benefits of a regular and systematic revenue administration.

2. When alienated villages are attached for arrears of Government revenue, they are often taken over under Government management temporarily till the arrears are recovered and Section 120 of the Land Revenue Code implies that a similar power may be exercised by Government in other cases in which Government may consider it desirable to take over the temporary management of Inam villages wherever there are sufficient reasons to justify such a step being taken. Government are therefore pleased to announce that they will be prepared in special cases, on the application of the Inamdars and on proper cause being shown, to take Inam villages under Government management for a period of not less than five years according to the circumstances of each case. The Inamdars concerned should apply in the first instance to the Deputy Commissioner of the district, who, after such enquiry as may be necessary, will move the Government for sanction through the Revenue Commissioner in cases in which, in the opinions of these officers, such a course is deemed desirable. During the period in which the village is under Government management, a charge of six per cent will be deducted from the gross collections in the village in each year to defray the cost of Government management. Survey and settlement will also be introduced into the Inam villages so taken under Government management.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ AGAIN—

Correspondence ending with Government Order No. R. 5434-6—R. M. 39-00-46, dated the 22nd December 1904, sanctioning an estimate for Rs. 97,000 for reconstructing the Hemagiri Anikat in the Krishnarajpete Taluk and conveying instructions for the adjustment of the cost.

READ ALSO THE FOLLOWING PAPERS—

(1) Petition dated the 6th September 1909 from Mr. Sitaramiah, one of the Vrittidars of the Devamba Agrahar Inam villages in the Krishnarajpete Taluk, representing that the income of Maddika Yachamanahalli (one of the Inam villages) should be appropriated only towards the contribution due from the Vrittidars of Devamba Agrahar Inam for the reconstruction of the anikat and not towards that due from the Inamdars of Hariharpur, Lakshmipur and Bommenahalli also as contemplated in the Government Order of the 22nd December 1904 and objecting to the extension of the Hemagiri channel as prejudicial to the Vrittidars who have the full and exclusive right to the anikat and the channel.

(2) Three petitions* from the holders of lands under the Hemagiri Channel in the Devamba Agrahar Inam villages, protesting against the recovery of an acreage contribution of Rs. 17-8-0 an acre from them for the old wet lands on the ground that the Vrittidars who are bound to supply water to their lands in return for the wet assessment they pay, should bear the cost of restoration of the anikat.

* One dated 20th January 1910 from H. Krishnasastri and others, the 2nd without date from Dharmadasi Rangaiengar and others and the 3rd dated 12th July 1910 addressed to His Highness the Maharaja by Srinivasa Rao and others.

(3) Petition dated 8th June 1910, from M. D. Narasimhaiengar and other raiyats, praying for the extension of the Hemagiri Channel by which about 350 acres of dry land in the Maddika Yachamanahalli Inam village and about the same extent in the Government village of Kudlukuppe will be converted into wet.

(4) Note dated 20th October 1909, by the Chief Engineer and Secretary to Government, Public Works Department, submitting the estimate for improving and extending the Hemagiri channel.

No. R. 4706-9—L.R. 143-09-6, DATED BANGALORE, 16TH FEBRUARY 1911.

ORDER THEREON.—The Hemagiri Anikat which had breached owing to high floods in the year 1900, was directed to be restored in Government Order No. R. 5434-6—R. M. 39-00-46, dated the 22nd December 1904. This anikat which has existed from ancient times is intended to irrigate lands situated in the ten villages noted in the margin, the first seven of which belong to the Devamba Agrahar Inamdars and the remaining three to three other different Inamdars. The Devamba Agrahar Inam villages were granted in Inam in 1826 by His Highness Sri Krishnaraja Wadayar III along with five others which cannot be irrigated by the anikat, the other three Inam villages having been granted previously.

The maintenance of the anikat and the channels has devolved upon the Inamdars from the time of the grant, the Devamba Agrahar Inamdars having by agreement set apart the revenue of the Maddika Yachamanahalli village to meet their share of the cost of the annual repairs. Owing to the complaint of the raiyats that the anikat and channel were not properly maintained, Government took over both the management of the Yachamanahalli village and the maintenance of the anikat and channel in 1867 and this arrangement has continued until now.

2. The anikat in its present condition irrigates about 1,381 acres of wet and 102 acres of garden land. Of these, 1,030 acres of wet and 61 acres of garden land are situated in the seven Inam villages belonging to the Devamba Agrahar referred to above, 332 acres of wet and 40 acres of garden land in the Hariharpur, Bommenahalli and Lakshmipur Inam villages and 19 acres of wet and 1 acre of garden land in the Government villages of Biliganahalli and Gattigenhalli. The cost of maintaining the anikat and channel has to be apportioned between the several Inamdars concerned and the Government in proportion to the extent of the lands respectively belonging to each thereby irrigated.

3. It is proposed to extend the existing channel, which is 16¼ miles in length, by 4¼ miles in order to irrigate an additional extent of 367 acres of Inam land situated in the Maddika Yachamanahalli village and 316 acres of Government dry land in the Government village of Kudlikuppe. The project for the extension of the channel provides also for the improvement of the old channel, which is stated to be necessary primarily to assure the safety of the channel and secure the efficient distribution of water. The improvements consist of (1) grading the channel to the proper section, (2) constructing *pakka* sluices, and (3) building weirs and superpassages for the proper disposal of the cross drainage water. The cost of the improvement of the old channel is estimated at Rs. 37,231 and that of the extension Rs. 17,554.

4. The restoration of the old anikat has cost Rs. 64,891 and it was directed in the Government Order read above that the cost should be recouped from the contributions recoverable from the holders of wet and dry lands irrigable thereby in the Inam and Government villages at the rates of Rs. 17-8-0 and Rs. 35 respectively per acre of wet and dry land newly converted into wet and the balance treated as a loan to the Devamba Agrahar Inamdars to be made good from the income of the Maddika Yachamanahalli village, which is under the management of Government.

5. The Devamba Agrahar Inamdars represented by one of the Vrittidars Mr. Sitaramaiya, object to the apportionment of the cost made in the Government Order referred to in the previous para on the ground that the Inamdars of Hariharpur, Lakshmipur and Bommenahalli have not been called upon to pay their proportionate share of the cost of restoring the anikat and the channel. They also object to the extension of the channel on the ground that the anikat from which it starts, belongs to them, having been included in the Sannad by which the villages were originally conferred and they contend that the channel cannot be extended without their consent. They also state that no accounts have been rendered of the income and expenditure of the Maddika Yachamanahalli village from the year 1867, in which it was taken under Government management, in spite of repeated applications therefor and that, if the income has been applied only to meet their share of the cost of maintaining the channel, there should be a surplus due to them, even after deducting therefrom such part of the cost of the restoration of the anikat as they may be rightly charged with. Mr. Sitaramaiya also urges that if the Kannambadi project, which is under investigation is carried out, most of the lands likely to be benefited by the extension of the channel will be submerged and that it is therefore desirable to postpone the execution of this project until the Kannambadi project is fully investigated.

6. Some of the raiyats of the Devamba Agrahar Inam villages have presented petitions protesting against the levy of any contributions from them on the ground that as survey and settlement has been introduced into the Inam villages and they are charged with full assessment on their holdings, they are not liable to contribute anything towards the cost of restoring the anikat for which the Inamdars are properly responsible and that the muchalikas executed by some of them promising to pay the contribution were executed by them in ignorance of their legal rights and in consequence of threats and undue influence. They also state that as the amount of contribution was calculated on the basis that the total cost of the work would be Rs. 97,000, the amount should be reduced when the actual expenditure has fallen considerably short of the original estimate.

7. The parties were heard in person and notices were also issued to the Inamdars of the Bommenahalli, Lakshmipur and Hariharpur villages to show cause why the order of 1904 should not be modified but they did not appear at the hearing.

8. The points for consideration are:—(1) how the cost of the restoration of the anikat and the channels and the improvement should be apportioned between the several Inamdars and Government, (2) whether the consent of the Devamba Agrahar Inamdars is necessary for the extension of the channel and to what extent

Land Revenue, dated 16th February 1911.

they may be made liable for the cost, and (3) whether the raiyats of the Inam lands are justified in objecting to the payment of the contribution already promised by them.

9. In regard to the first contention of the Devamba Agrahar Inamdars that the anikat in question belongs to them, Government are of opinion that this claim is unfounded. The *katte* referred to in the Sannad in connection with the Bandihole village cannot be the anikat in question as the term has to be interpreted in the same sense in which it is used in connection with other villages granted by the same Sannad. The anikat also irrigates nearly 372 acres in the Hariharpur, Bommenahalli and Lakshmipur villages which had been granted in Inam prior to the Devamba Agrahar Inam and this forms about a fourth of the area actually irrigated by the anikat. It also irrigates about 20 acres of Government land and is stated to be capable of irrigating nearly 1,800 acres more if the channel is extended as far as the Ganjigere tank. The anikat seems to have been known as the Hemagiri Anikat from time immemorial and is referred to as such even in the ancient accounts produced by Mr. Sitaramaiya. If there had been any intention of granting it as part of the Inam, it would have been described by this name in the Sannad. Both in 1867 when the maintenance of the anikat and the channel was taken over by Government and in 1888 when it was decided to retain them under Government control, the Inamdars' right to the anikat has been virtually negatived. The instances which Mr. Sitaramaiya cites from the accounts of the years Krodhana, Pramaditya, Rudrodgari and Akshaya, of expenditure having been incurred by the Inamdars in repairing the anikat and the channel merely show that the Inamdars have all along been held responsible for the proper upkeep of the anikat and do not furnish any evidence of a right thereto. The right claimed by the Devamba Agrahar Inamdars in the anikat itself has not therefore been established and their consent is not necessary for the extension of the channel so long as the supply of water to the lands in their Inam villages is not prejudiced.

10. It is also observed that in the order of 1904, the restoration of the anikat and the extension of the channel are considered as parts of the same project and the scheme laid down therein for the repayment of the cost of the work assumes that the channel will be extended. It is proposed to treat the amount of the cost not realised by means of contributions from the raiyats as a loan to be liquidated from the income of the Yachamanahalli village and unless the channel is extended, there is not likely to be much surplus in the income of the village after meeting the cost of maintenance of the anikat and the channel, from which the loan could be expected to be repaid within a reasonable time. The restoration of the anikat has merely revived the supply of water to existing wet lands. Dry lands cannot be converted into wet without the extension of the channel and these are situated partly in the Inam village above referred to and the Government village of Kudlakuppe, the areas being 367 acres and 313 acres respectively. The contribution payable on account of these lands is at the rate of Rs. 35 per acre and the amount realised will more than make up for the cost of the extension, while the Devamba Agrahar Inamdars will be able to derive therefrom even much greater benefit than they have done from the mere restoration of the anikat. Under Rule XXXIII of the Land Revenue Rules, the water-rate leviable on lands newly converted into wet has to be paid to Government as the anikat is drawn from the Hemavati but in consideration of the fact that the Inamdars would pay a great part of the cost of the restoration of the anikat and the improvement of the channel, Government while passing the order of 1904 have counted the increase in income likely to result therefrom in favor of the Inamdars and have indicated an intention to forego it. Under the circumstances, Government consider that the opposition of the Inamdars to the extension of the channel is ill-advised and that there should be no objection to carry out fully the original project. The representation of the Inamdars, however, that the extension of the channel should not be undertaken if the Kannambadi project is likely to render it useless, will be considered by the Chief Engineer and specially brought to the notice of Government before the work is sanctioned and started by the Public Works Department.

11. With regard to the apportionment of expenditure incurred on the work of restoration, Government consider that the calculation made in the Order of 1904 is incorrect and that it is unduly favorable to the Inamdars of Lakshmipur, Bommenahalli and Hariharpur. Before deciding what the correct principles on which this expenditure is to be distributed are, it is necessary to deal with the contention of the raiyats that they are not liable to pay any contribution on account of the lands held by them. The restoration of the anikat was undertaken chiefly at the instance of the raiyats whose lands were lying waste and who were paying half the assessment to the Inamdars even when the anikat was breached. They have executed Mutchalikas to pay contribution at the rate of Rs. 17-8-0 per acre in respect of lands already wet and at Rs. 35 per acre in respect of dry lands newly converted into wet. This offer of contribution greatly influenced the decision of Government in sanctioning the restoration of the work. Contribution is levied from occupants of Government lands in similar circumstances before a work of irrigation is undertaken and the position of these raiyats, who are *kadim* tenants and who enjoy the benefits of survey and settlement in these villages, is identical with that of Sirkar raiyats. Government are therefore of opinion that the objection of the raiyats to pay the contribution already promised by them should be overruled and that they are not entiled to any reduction of rent on account of the payment of contribution.

12. The wet and garden lands under the anikat at present are approximately 1,091 acres in the Devamba Agrahar Inam villages, 372 acres in the Hariliarpur, Bommenahalli and Lakshmipur villages and 20 acres of Government land or in all 1,483 acres. The additional extent of dry lands likely to be converted into wet by the restoration of the old channel is inappreciable. The amount of contribution payable in respect of these lands is at the rate of Rs. 17-8-0 per acre and the amount likely to be realised thereby will be about Rs. 25,000. The restoration of the anikat has cost Rs. 64,891: The raiyats contend that as the rate of contribution was originally fixed on the supposition that the cost of the work would be much higher, it should now be reduced proportionately, the cost having greatly decreased. The contribution is paid not merely for the restoration of the anikat but also for effecting such improvements in the channel as will ensure a permanent supply to the raiyats. The improvements proposed to be effected to the channel are described in para 3 above and it will be seen therefrom that they are chiefly necessary for improving the condition of the channel and as they are estimated to cost Rs. 37,231, the total cost of the work of restoration will exceed the amount of Rs. 97,000 originally estimated. Government are therefore of opinion that the rate of contribution cannot be reduced. The Deputy Commissioner is requested to take immediate steps to recover the amount of contribution due from the raiyats. In any case in which he may be satisfied that the demand for the entire amount in one lumpsum would operate as a hardship, he is at liberty to allow the amount to be paid in two or three instalments. The objection of the Inamdars against incurring further expenditure on improving the channel cannot also be sustained. The Chief Engineer is requested to take all the necessary steps for bringing the channel into a proper condition if its existence is not likely to be affected by the Kannambadi project.

13. The Inamdars contend that a part of the expenditure to be incurred in the improvement of the channel is necessary only in order to carry out the extension. The Chief Engineer is requested to report whether this contention is correct and what this portion of the estimate will amount to.

14. With regard to the apportionment of the cost directed in the order of 1904, Government have already observed that the objection of the Devamba Agrahar Inamdars, *viz.*, that the Inamdars of Lakshmipur, Bommenahalli and Hariharpur villages, have been unduly favoured at their expense, inasmuch as only a contribution is to be recovered from their tenants and they are not made to bear a proportionate share of the cost according to the extent of the lands irrigated from the amcut in their villages, has much force in it. The total area now irrigated by the anicut is 1,483 acres. Of this, 372 acres are situated in the above 3 Inam villages. Deducting the amount realised by way of contribution from the total cost, the balance has to be

Land Revenue, dated 16th February 1911.

apportioned between the Devamba Agrahar Inamdars, the three Inamdars above referred to and the Government in proportion to the extent of the irrigable land respectively belonging to each. The same principles of apportionment should be followed with regard to the cost of such improvements to the channel as may be necessary to increase its safety and to facilitate the proper distribution of water. The order of 1901 will be modified accordingly and the Deputy Commissioner will report the actual extent of irrigable land in each village, and what each share amounts to. In the case of the Devamba Agrahar Inamdars, it may be treated as a loan recoverable from the revenues of the Maddika Yachamanahalli village. The question of the mode of recovering the amount that should be charged to the Bommenahalli, Lakshmipur and Hariharpur Inamdars will be separately considered after the Deputy Commissioner's report as to the exact amount leviable from them is received.

15. The Inamdars also state that no accounts have been rendered to them of the income and expenditure from the revenues of the Maddika Yachamanahalli village from the time that it was taken under Government management in 1867, that the Inamdars of Hariharpur, Bommenahalli and Lakshmipur have not been made to contribute regularly towards the cost of the maintenance of the anikat and the channel and that if the accounts are properly made up, it will be found that a large surplus will be due to the Inamdars, which will render it unnecessary for any part of the cost being treated as a loan. The Revenue Commissioner is requested to take immediate steps to have the accounts prepared so that the proper share of the cost is debited to the other parties concerned and recovered without delay and the exact balance due to the Devamba Agrahar Inamdars ascertained and reported to Government. The report should be made as soon as possible and Government will expect it in three months. It is irregular that these accounts should not have been adjusted every year and details furnished to the Inamdars who have been applying for them. The income of the Maddika Yachamanahalli should not be appropriated in any year to meet the dues not chargeable to the Inamdars, and steps should be taken to levy every year the amounts due from the others responsible for the maintenance of the channel without being allowed to accumulate.

Government Order No. 3065-75—L. S. 49-03-13, dated the 3rd October 1904, passing orders on the subject of printing and distributing Village, Taluk and District Maps.

2. Letter No. 57, dated 12th November 1910, from the Superintendent of Revenue Survey and Settlement in Mysore, reporting that in accordance with the instructions issued in the above order, 100 copies of maps of each of the districts in the State have been got printed, submitting for approval a list showing the distribution of copies of the maps; and proposing that as the printing of these District Maps involves a great deal of trouble and expense and their reprinting cannot therefore be undertaken frequently, the copies should not be issued more than once to the officers to whom they are distributed or sold to the public like Taluk or Village Maps.

No. R. 4949-72—L. S. 19-10-2, DATED BANGALORE, 28TH FEBRUARY 1911.

ORDER THEREON.—The proposals submitted by the Superintendent of Survey in regard to the distribution of copies of the District Maps are approved.

2. Government however consider that as the map is likely to be of use to the public it should be available for sale. The Superintendent of Survey is therefore requested to get a sufficient number of additional copies printed fixing a price upon the map which would recoup the cost incurred, and have them sent for sale, as usual, to the Government Book Depôt.

3. Copies of the map will be distributed as shown in the appended list.

Letter No. 183, dated 30th August 1910, from the Officer in charge of the Agricultural Chemist's Office, submitting his annual report for the year 1909-10.

No. R. 4848-51—AGRI. 18-10-5, DATED BANGALORE, 23RD FEBRUARY 1911.

ORDER THEREON.—The report contains as usual a very interesting record of work done under the direction of Dr. Coleman not only in his own Department of Entomology and Mycology but also in connection with agriculture and agricultural chemistry. In the case of the latter the experiments that were started by Dr. Lehmann with the object of ascertaining the suitability of green manures for the staple crops in the State and the best mode of applying them and also the manner in which the cultivation of paddy and sugar cane could be improved have been continued and though no conclusive results have been obtained, many observations have been made which will be useful eventually in drawing deductions of practical value. Government agree with Dr. Coleman that experiments in the laboratory and insectary should be closely associated with field work but that no results should be published without the fullest scientific investigations and trial.

2. One of the best modes of creating an interest in agricultural improvements is to enlist the co-operation of the raiyats in finding out the value of methods which have been found to be useful by careful experiments and Government are glad to find that this means of disseminating useful knowledge and of verifying results is largely made use of by Dr. Coleman. Sunn Hemp grown as green manure and ploughed in having been found to be superior to mineral manures, arrangements, it is stated, are being made with the Deputy Commissioners of Districts to carry out demonstrations of the practice. The commercial feasibility of the cheap manufacture of sugar by the improved methods suggested after elaborate investigations by Dr. Lehmann is being tested through a private local producer. The spraying in connection with the Koleroga and the various modes of combating insect pests are being conducted, as far as possible, through the agency of local men.

A small seed depot was opened during the year and about 253 persons were supplied with seed. It is stated that the operations cannot be much extended unless additions are made to the Farm and this question will be considered separately. Demonstrations of the use of improved implements were held in all the districts and considerable interest has been aroused in buying them. Arrangements are also stated to be made for the manufacture of improved implements in the State.

The work of the most permanent value done during the year was the issue of a bulletin describing the causes of Koleroga, its distribution, the causes affecting its spread and the results obtained by the different methods of combating it. Forty-five garden owners have been induced to try the new method of spraying and 30 acres of gardens have been sprayed. Experiments are now being conducted with the object of determining the cheapest and most effective spray, the relative value of spraying and Kotte-tying and also finding out some alternative host plants of the Koleroga fungus. The causes of Anaberoga, another supari disease, have been investigated and remedies for it are being searched. Further investigations have been made in connection with the ring disease of potatoes and the possibility of its infecting other plants is being tested. Three important insect pests are also being carefully studied and means of combating them investigated. It was found that one of these was a grasshopper of a new species, hitherto unknown to science, which has been named by Professor Bolivar after Dr. Coleman

Revenue (Agriculture), dated 23rd February 1911.

in honour of his having been the discoverer. The other two pests are the rice grasshopper which has been doing great damage in the Sorab Taluk, Shimoga District, and the *Kambalihula* or hairy caterpillar, which does much damage to young crops in parts of Chitaldrug and Shimoga Districts.

Government desire to convey to Dr. Coleman their appreciation of the valuable work done by him in all the departments under his charge during the year.

OF THE GOVERNMENT ADVOCATE

Proceedings of the Government of His Highness the Maharaja of Mysore,

No. R. 4604-7—Ft. 110-10-2, dated Bangalore, 11th February 1911.

Order thereon.—The Nandi Forest is an old State Forest constituted several years ago by the late Inspector-General of Forests who notified its boundaries for the first time in March 1890. As however it was not declared a State Forest by properly constituted authority, the then Conservator Mr. J. L. Pigot requested in December 1900 that it might be notified by Government under Section 9 of the Forest Rules of 1878 in view to obviate the necessity of going through the process of Forest Settlement under the new Forest Regulation which was to come into force on 1st January 1901. Pending the submission of a memo of rights of way and other user the boundaries of the forest were notified under date the 31st December 1900 and the Deputy Commissioner of Kolar was requested to report whether the boundaries were accurately described and whether there were any rights of way or user to be admitted and recorded.

2. After a considerable amount of correspondence spreading over a number of years the Conservator of Forests now submits for publication a revised boundary statement with a memo of rights of way and user allowed in the forest. He also submits a statement of lands included in it from which it is observed that the area of the Nandi Forest has been increased by 186 acres and 15 guntas. The Conservator explains that this excess is not due to any additional area having been included but to certain mistakes in the original boundary description which did not embrace the whole area under the forest management. The total area of the forest has thus been raised from 2,640 acres to 2,826 acres and 15 guntas.

3. As the notification of 1900 was not strictly final, and in view of the fact that the whole area has been under the management of the Forest Department for more than 20 years without any private rights being advanced, the Government of His Highness the Maharaja are pleased to approve of the revised notification which will be published in the Gazette as hereunder.

4. The Conservator of Forests is requested to furnish the Superintendent of the Revenue Survey with a copy of the Nandi Forest map in view to the necessary alterations being effected in the village maps concerned.

NOTIFICATION.

No. R. 4608—Ft. 110-10-3, dated Bangalore, 11th February 1911.

In modification of Notification No. 403—Ft. F. 96-95, dated 31st December 1900, the Government of His Highness the Maharaja of Mysore are pleased to declare that the Nandi State Forest the boundaries of which are revised as set forth in the schedule annexed to this notification shall continue to be a "State Forest" subject to the exercise of rights specified at foot thereof :—

District	Taluk, hobli and village	Approximate area	Name of block	Situation and boundaries
				(Hilly tract situated to the south-west of Chikballapur)
Kolar	Chikballapur Nandi	2,826 acres & 15 guntas	Nandi State Forest	*North.*—Commencing from the point about 6 chains south-east from the southern corner of Survey No. 101 of Venkatesapura majre to Chikrayappanahalli, Dodballapur Taluk, Bangalore District, the line runs north-east through Survey Nos. 100, 101, 89 and 99 for a distance of about 4 furlongs and then east through Survey Nos. 99 and 98 for a distance of about 2 furlongs and 110 yards till

Forest, dated 11th February 1911.

it meets the southernmost corner of Survey No. 103 of the same village and also the western boundary of Jodi Kanavenarayanapura; then along the western and southern boundaries of Jodi Kanavenarayanapura till it meets the north-west corner of Survey No. 84 of Sultanpet.

East.—From the last named point the line turns south and follows the western boundary of Survey No. 84 of Sultanpet till it meets Nandi-Dodballapur high road at the southern extremity of the last named survey number; then crossing the aforesaid high road it goes along the south sides of Survey Nos. 80 and 50 of Sultanpet till it meets the north-west corner of Survey No. 79 of Nandi; then along the west side of the last named number till it meets the north-west corner of Survey No. 42 of Angatta; then along the west side of Survey No. 42 of Angatta and Survey Nos. 152, 194, 155, 157 and 126 of Kudavate till it meets the north-west corner of Survey No. 18 of the last named village; then along the north side of Survey No. 19 of Kudavati for a distance of about 2 furlongs and 80 yards.

South.—Then the line turns westwards and goes along the north side of Survey No. 19 of Kudavati and northern boundary of Kanavapur village of the Bangalore District for a distance of 1 mile, 6 furlongs and 52 yards.

West.—From the last named point the line goes along the eastern boundary of Kanavapur (Bangalore District) till it meets the south-west corner of Survey No. 23 of Madakehosahalli; then along the south side of the last named survey number to its south-east corner; then along the east side of the same number till it meets the south-west corner of Survey No. 21 of the same village; then along the south side of Survey Nos. 21, 89 and 88 till it meets the south-east corner of the last named survey number of the same village; then along the east side of the last named survey number to its north-east corner; then along the north sides of Survey Nos. 88, 89 and 90 till it meets the south-eastern corner of Survey No. 91 of the same village; then along the east sides of Survey Nos. 91, 87, 83 and 82 till it meets the north-east corner of the last named number; then along the north sides of Survey Nos. 82 and 79 of Madikehosahalli for a distance of about 2 furlongs and 22 yards; then straight through Survey No. 81 of Madikehosahalli and 17 of Chennapur for a distance of about 5 furlongs and 121 yards till it meets the southern boundary of Survey No. 23 of Venkatesapura majre, then north-west through Survey No. 23 of Venkatesapura majre to Chikrayappanahalli for a distance of 4 furlongs and 55 yards; then north through the last named survey number for a distance of about one furlong and 130 yards till it meets the starting point.

The following public rights of way have been allowed within the block:—

(1) A foot-path from Chennapur to Sultanpet, 2 yards wide and 1 mile and one furlong long, open for men only at all times of the year. It enters the State Forest at one furlong and one chain south from the point where the demarcation line cuts the northern boundary of Survey No. 17 of Chennapur, running east and north-east quits it 3 furlongs and 5 chains south from the north-west corner of Survey No. 84 of Sultanpet.

2. A high road from Kolar to Sompur, 7 yards wide and 5 furlongs and 5 chains long, open for men, cattle and carts at all times of the year. It enters the State Forest at the south-eastern corner of Survey No. 82 of Madikehosahalli running north-east quits it at the south-west corner of Survey No. 84 of Sultanpet.

3. A bridle path from Dodballapur to Nandi hill, 3 yards wide and 2 miles and 4½ furlongs long, open from men and cattle at all times of the year. It branches from the Kolar-Sompur high road No. (2) above at a distance of 4 furlongs and 100 yards from the 37th mile stone and runs south south-east in a zigzag manner, till it meets the Nandidrug Fort.

4. A bridge path from Bangalore to Nandi Hills, 3 yards wide and one mile and 6 furlongs long, open for men and cattle at all times of the year. It enters the State Forest at about one chain south from the northern corner of Survey No. 126 of Kuduvati village and running north-east in a zigzag manner joins the path No. (3) named above at the 3rd furlong stone of the 2nd mile.

5. A foot-path with stepway from Sultanpet to Nandi Hills, 2 yards wide and 5 furlongs and 3 chains long, open for men only at all times of the year. It enters the State Forest at 5 chains west from the south-west of Survey No. 80 of Sultanpet and runs south-west and south till it meets the fort.

The Nandidrug Fort forms an enclosure in the forest.

The Administration Report of the Forest Department for the year ending 30th June 1910, received with letter No. 4033, *dated* the 5th November 1910, *from* the Conservator of Forests in Mysore.

No. R. 4736-45—FT. 65-10-3, DATED BANGALORE, 18TH FEBRUARY 1911.

ORDER THEREON.—*Reservation of fresh areas.*—The constitution of State Forests did not make much progress, an area of only 26·86 square miles having been added during the year. This is explained to have been due to the fact that the special Forest Settlement Officer entered upon his duties late in the year. The area of reserved lands increased to 770·35 square miles from 702·35 square miles.

2. *Demarcation and surveys.*—The progress of demarcation and surveys was fair, 253 miles of new boundary lines having been cleared and 3,220 miles of existing lines widened and improved during the year.

3. *Working plans.*—For various reasons such as difficulties of extraction or transport, the large stock of timber on hand, and the want of demand in certain cases, the operations in the forests in general were not conducted to the full extent provided in the sanctioned working plans. This is however not much to be deplored as there is less harm in underworking a forest than in overexploiting its resources.

4. *Communications and buildings.*—The construction of new roads and the repair and improvement of existing roads received sufficient attention. About 32 miles of new roads were opened and existing roads improved. A sum of nearly Rs. 25,536 was spent on new buildings. A few wells were sunk, and some others repaired and deepened.

5. *Offences against Forest Laws.*—There was a small increase in the number of offences reported but most of these were of a trivial nature and were dealt with by the Department officers under Section 59 of the Forest Regulation. It is noted with approval that there was only one case pending with the Forest Officers at the close of the year. The number of cases of injury to sandal trees pending before Revenue officers still continues to be large and it behoves the Revenue Commissioner to take energetic steps to secure their speedy disposal. Ninety-six cases were pending in the Mysore District at the beginning of the year and none of them was disposed of during the year. The suggestion of the Conservator to invest District Forest Officers with certain limited powers of disposal in regard to these offences will receive attention.

6. *Protection from fire.*—Government regret to note that, in spite of the fact that the fire season was normal in duration and there were no other unfavourable conditions, fire-protection was not more successful than it is reported to have been. Many of the fires are stated to have been due to preventable causes and the percentage of failure was 4·7 of the area attempted to be protected. The occurrence of the fires in the Chamrajnagar and Kukwada-Ubrani Forests referred to in paras 26 and 27 of the report apparently indicate considerable negligence on the part of the Forest subordinates responsible for the operations, and Government would be glad, to receive from the Conservator a detailed report about them. It is, however, satisfactory that all the old State Forests escaped almost unscathed.

The system of paying rewards to wild tribes for successful protection which is reported to be attended with good results, may be continued.

7. *Protection from cattle.*—The total revenue from grazing and fodder grass during the year was slightly in excess of that of the previous year, and came up to the average of previous years. As in previous years the lease system and the lump-sum fee system prevailed in the Hassan and Chitaldrug Districts, respectively, and the license system in the other districts.

Forest, dated 18th February 1911.

8. *Protection against injuries from natural causes.*—The spike disease of the sandalwood continued in a virulent form in certain tracts as in previous years. Lac-incrustation also accounted for the death of a large number of trees. In this connection, Government would invite the attention of the Conservator to the desirability of undertaking systematic operations for the culture of lac on suitable hosts in selected areas.

9. *Sylviculture.*—The year was very favourable for natural regeneration, which was to a large extent supplemented by artificial planting in burnt areas other than coupes. The old coupes and the areas on which the bamboo had seeded and died were stocked with teak, with apparently satisfactory results.

10. *Exploitation.*—The total quantity of timber sold during the year was 3,83,245 cubic feet, against 5,35,872 cubic feet in the previous year and the price thereof was Rs. 3,18,630 against Rs. 3,68,695. A net surplus of Rs. 25,250 was secured by the sale of 81,669 cubic feet of timber to Mr. Hajee Ismail Sait.

Departmental timber operations were conducted on a smaller scale than in the previous year for various reasons. The expectations raised by the condition of the market in the early part of the year were not fulfilled at the end of the year. It is, however, satisfactory to learn that the efforts made to encourage private enterprise in the extraction and sale of timber particularly dead and fallen wood and lops and tops were attended with some measure of success. Government agree with the Conservator that the system possesses several advantages over departmental operations.

11. *Sandalwood.*—About 2,306 tons of rough sandalwood were collected during the year, and 1,882 tons of good wood were prepared for sale. Including the stock on hand at the beginning of the year there were available for sale 2,850 tons and 9 cwts. of good wood. The quantity sold was 2,050 tons and 7 cwts. The average price per ton realised was Rs. 408 as against Rs. 498 in the previous year. The rate compares very unfavourably with that for 1907-08, *viz.*, Rs. 551 per ton, and also with the average for the decade, *viz.*, Rs. 457 per ton.

12. *Financial results.*—The total receipts of the year amounted to Rs. 17,59,008 as against Rs. 18,03,555; while the expenditure of the Department was Rs. 6,74,812 against Rs. 7,50,031 of the previous year, made up of Rs. 3,81,881 under Conservancy and Works and Rs. 2,92,931 under Establishment. The net surplus for the year was Rs. 10,84,196 as against Rs. 10,53,524 of the previous year, but it does not compare favourably with Rs. 16,17,963 for 1907-08. The financial results of the year were thus not quite satisfactory owing chiefly to the insufficient market for sandalwood and the limited timber operations of the Department.

13. *General.*—Government wish to express their appreciation of the efficient manner in which the work of the Department was carried on during the year by Rai Bahadur Mr. M. Muttannah, Conservator of Forests.

Letter No 4303—B. & R. 747, dated the 20th January 1911, from the Comptroller, forwarding a copy of letter No. 6762, dated the 23rd December 1910, from the Revenue Commissioner in Mysore, regarding the estimate of receipts and expenditure under "Loans and advances for Land Improvement loans including those for Irrigation Wells and Takavi advances."

No. FL. 4246-55—G. F. 156-10-6, DATED BANGALORE, 15TH FEBRUARY 1911.

ORDER THEREON.—The Revenue Commissioner places the estimate of receipts and expenditure under "Loans and Advances for Land Improvement Loans including those for Irrigation Wells and Takavi advances" at Rs. 1,43,000 and Rs. 1,25,000 respectively against the respective estimates of Rs. 55,000 and Rs. 70,000 already sanctioned by Government in the Ways and Means Estimate as detailed below:—

	Receipts. Rs.	Expenditure. Rs.
Advances and loans under Land Improvement Regulation	10,000	10,000
Land improvement and Takavi Loans under the Revised Rules	45,000	60,000
Total	55,000	70,000

2. The above proposals necessitate an increase of Rs. 88,000 on the receipt side and of Rs. 55,000 on the expenditure side resulting in a net increase of Rs. 33,000 on the receipt side.

3. The Revenue Commissioner expects that 75 per cent of the demand will be realised during the current year, but, making an allowance of Rs. 33,000 for short recovery, etc., the recoveries are likely to be Rs. 55,000 more than what has been taken in the Comptroller's Ways and Means Estimate. The extra amount of Rs. 55,000 asked for by the Revenue Commissioner to meet the pending applications for these loans may therefore be allowed. Government expect that the recoveries on account of previous advances will not, during the ensuing collection season, fall short of Rs. 1,10,000, Rs. 55,000 as anticipated in the Ways and Means Estimate and Rs. 55,000 as estimated above in excess of the original estimate.

4. Government take this opportunity of impressing on the Heads of Departments and other officers controlling the administration of the funds mentioned in Government Order No. Fl. 5715-24—G. F. 133-09-3, dated 19th May 1910, the necessity of sending their estimates in time so that all of them may be incorporated in the Ways and Means Estimate.

The report on the Administration of the Stamp Department for the year 1909-10 received with letter No. 135, dated 14th November 1910, from the Commissioner of Stamps in Mysore.

No. FL. 4057-66—S. R. 77-10-2, DATED BANGALORE, 1ST FEBRUARY 1911.

ORDER THEREON.—Omitting annas and pies, the stamp revenue for the year under review was Rs. 8,16,632 or Rs. 31,288 less than that of the previous year and greater than that of every year after the outbreak of plague, excepting 1908-09. It is Rs. 10,000 short of the revenue in 1897-98 the year immediately preceding the outbreak of plague.

2. The aforesaid decrease of Rs. 31,288 is attributed by the Commissioner of Stamps to the return to normal conditions after the drought that prevailed in the previous year. It can also be partially attributed to the fall in the average value of civil litigation in the State, as evidenced by the Civil Statistics for the year.

3. The report discloses a steady decline in the income from the sale of judicial stamps in the Kadur District. This is attributed by the Deputy Commissioner to the fall in the number of civil suits from the taluks of Koppa and Sringeri after the abolition of the Yedahalli Munsiff's Court in July 1907. But the decline commenced so far back as 1904-05 and continued till 1906-07. There was little variation in 1907-08; and the next year showed a slight recovery. The decline is therefore obviously due to other causes not easily ascertainable.

4. The demand for the new three-pie paper during the year was nearly double of that of the preceding year, and was probably due to the better quality of the paper that was supplied.

5. The attention of Deputy Commissioners is invited to the remarks in para 22 about the need for the inspection of Offices and Courts where large numbers of stamps are used.

6. The report is silent on prosecutions for offences under the Stamp Regulation and the inference is that no prosecution was instituted. This is matter for comment.

No. FL. 4180-2—S. R. 74-10-2, DATED BANGALORE, 10TH FEBRUARY 1911.

ORDER THEREON.—There is no proof of the alienation to the Inamdar of the excise revenue of the village either at the time of the grant of the Inam or at any later date, nor has any evidence of enjoyment been produced. In spite of the several opportunities afforded to the Inamdar to substantiate his right he has failed to do so. In these circumstances, Government hold that the Inamdar is not entitled to the excise revenue from toddy. The toddy shop in this village will be removed from the list of Inam shops.

No. FL. 4183-5—S. R. 67-10-2, DATED BANGALORE, 10TH FEBRUARY 1911.

ORDER THEREON.—There is no proof of the alienation of the toddy revenue to the Inamdar at the time of the grant of the village as Inam. "Abkari" has been expressly reserved to Government at the Inam Settlement conducted in 1879-80, and no proof has been adduced of the enjoyment of the privilege, if any. The Report on the Administration of the Excise Department for the year 1909-10, received with the Excise Commissioner's letter No. 3022, dated the 29th September 1910.

No. FL. 4507-16—S. R. 48-10-2, DATED BANGALORE, 25TH FEBRUARY 1911.

ORDER THEREON.—During the year under review an important measure of reform was decided upon, *viz.*, the reduction of the strength of liquor sold from 20° U. P. to 25° U. P. with effect from the 1st July 1910. At the same time the still head duty payable on proof spirit was raised from Rs. 5-15-0 to Rs. 6-5-4 per gallon. It is not easy to forecast what effect the change may have on consumption and consequently on the revenue. But it was considered that the reduction in the strength was a step in the right direction.

2. Another important change effected during the year was the prohibition of liquor shops during fairs or *jatras* within a radius of one mile from the place of *Jatra*.

3. The policy of reducing, as far as possible, the number of shops in the State for the sale of intoxicating drinks and drugs was continued during the year, the total reduction in number thus effected being 209.

4. Other minor administrative changes were also carried out, of which the following are the most important:—

(*a*) The provisions of the Excise Regulation were extended to Eucaine and allied drugs.

(*b*) The powers of sanctioning remissions and refunds within certain limits was delegated to the Excise Commissioner by the Government; and the powers of confiscation hitherto exercised by the Excise Commissioner were delegated to the Deputy Commissioners and District Excise Officers.

(*c*) The rules regarding tree tapping licenses in respect of Bagani trees were simplified so as to facilitate the speedy marking of these trees in the malnad.

(*d*) The issue price of ganja was ordered to be raised from Re. 1 to Rs. 1-4-0 per seer of 80 tolas with effect from the 1st July 1910.

5. *Consumption of arrack.*—The consumption of arrack during the year amounted to 3,83,319 gallons against 4,02,947 gallons in the previous year. The decrease of nearly 20,000 gallons was distributed over all the districts, except Hassan, which showed a small increase. Various reasons have been ascribed for this decrease; but it was probably due to purely local or temporary causes such as the closing of works by the Public Works Department in the Kolar District and the abolition of the Transport of the Mule staff stationed at Hunsur. The increase in popularity of the special liquors manufactured at the Central Distillery, Bangalore, is said to have affected the consumption of arrack in the districts of Kadur and Shimoga. The consumption of these special liquors has nearly doubled during the year under report; and it is stated that they are replacing to a certain extent the chief Foreign Liquors that are imported into the State.

6. The year's report again discloses the fact that the increased rentals as compared with the consumption of arrack and the duty realised thereon do not seem to leave an adequate margin for the legitimate profit of the vendors. The high prices are doubtless the result of keen competition among the bidders. But it is to be feared that this state of things constitutes a great temptation to malpractices, such as dilution and short measurement and requires sustained vigilance on the part of the departmental staff for their prevention.

7. *Toddy.*—The number of Toddy, Date and Cocoanut trees tapped was 439,536 against 474,056 in the previous year. The decrease was observed in all the districts of the State, except in Kadur which shows a small increase. It is not clear whether this fall in the number of trees taken up for tapping indicates any decrease in the consumption of toddy during the year, as the larger number of trees tapped during the preceding year was no doubt due to the diminished

yield of the trees on account of the drought that then prevailed. The rentals realised from the sale of toddy shops showed however an increase of Rs. 3,149-13-4 which is attributed by the Excise Commissioner to the reservation of upset prices in respect of the shops that were sold for a term of two or three years.

8. *Bagani Toddy.*—The number of trees tapped in the Bagani area also fell from 16,449 to 16,086, and the rentals fetched Rs. 35,037-6-0 against Rs. 35,251-4-11 in the previous year. As many as 109 Bagani shops were abolished reducing the total number of Bagani shops in the three malnad districts of Kadur, Hassan and Shimoga from 828 to 719. It is understood that many of the shops that were abolished fetched very small rents and their abolition is not likely to cause inconvenience to the drinking classes or to lead to illicit tapping.

9. *Ganja.*—The cultivation of ganja locally whether by direct departmental agency or through raiyats with seed obtained from Khandwa in the Central Provinces has not so far proved a success, and the Excise Commissioner has since recommended that for the present it is best for the State to continue to get its supply of the drug from the Store Houses in British India.

10. *Financial results.*—The year brought in a total Excise revenue of Rs. 44,78,786 against Rs. 45,87,849 in the previous year. The decrease is accounted for by the fact that the conditions of 1908-09 were exceptional. The collection made amounted to 99·7 per cent of the current demand and is satisfactory.

11. *The Excise Training School.*—The Excise Training School which was sanctioned in 1908-09 commenced to work during the year. 87 officers (Inspectors and Assistant Deputy Inspectors) received training in the school.

12. *Offences.*—The occurrence of 71 cases of illicit cultivation of the hemp plant as against 26 in the preceding year calls for attention and there is reason to believe that a considerable quantity of ganja is also being smuggled into the State from across the British frontier. It is necessary that the department should bestow special attention to this branch of preventative work.

13. In conclusion, Government are glad to be able to record their high appreciation of the efficient manner in which Mr. Sparkes and the Deputy Commissioners of Districts have conducted the affairs of the department during the year.

Government Order No. 8368-77—Ex 321, dated 9th March 1898, defining among other things the duties of Excise Supervisors (now Inspectors) in regard to the collection of Excise revenue.

2 Correspondence ending with letter No. 10160, dated 7th June 1910, from the Excise Commissioner in Mysore, submitting his opinion on the subject of the respective responsibilities of the Revenue and Excise Officers in the matter of the collection of Excise revenue

3 Letter No. 2077, dated 11th August 1910, from the Revenue Commissioner in Mysore, expressing his views in the matter.

No. FL. 4569-78—S. R. 54-06-5, DATED BANGALORE, 28TH FEBRUARY 1911.

ORDER THEREON.—The existence of considerable misapprehension as to the respective duties of the officials of the Revenue and the Excise Departments in the matter of collecting Excise revenue having attracted the notice of Government, the Excise Commissioner was requested to formulate proposals defining the functions of the officers of the two departments. The Excise Commissioner has suggested that the work of collection should be entrusted solely to the officers of the Revenue Department, the Excise Inspector being regarded as a subordinate auxiliary officer to the Amildar, helping him in securing bidders at the time of the annual sales, bringing to his notice any short-comings in local Excise administration and frequently inspecting the registers and books kept by the Taluk Excise official.

2. The Revenue Commissioner observes that the Amildar should be the central authority in the Excise administration of the taluk both for the purpose of farming out the Excise revenue and for its collection and that, under the present system, he (Amildar) is not vested with sufficient power and responsibility or provided with a proper subordinate staff for assisting him in the discharge of his work. He therefore suggests that the Amildar should be given greater freedom of action and greater control over the Taluk Excise Staff and adds that, if possible, a stationary responsible official who would always be near him to bring to his notice the progress of collection work, prepare the necessary processes and otherwise help generally in the Excise work of the taluk, may be placed at his disposal.

3. Government consider that the existing system, if properly worked, would well answer all the above purposes. Under the terms of the sale notification the Amildar is invested with an effective voice in the final confirmation of the sales in the names of successful bidders. He has the Excise Inspector, the Taluk Vottumutsaddi and his subordinates in the Revenue Department to help him. The Vottumutsaddi who is the Amildar's Excise gumasta maintains the Excise accounts and can keep the Amildar informed from time to time of the progress of collection work in the taluk, furnish him with a "bakee patty" (individual list of arrears and defaulters) and do all the clerical work in connection with Excise revenue. The Excise Inspector should in addition to securing bidders during the sales of excise privileges, help the Amildar by systematically and carefully examining the accounts maintained by the Vottumutsaddi at least once a month and reporting to the Amildar the result of his inspection. He should also during his itineration in the taluk and inspection of arrack, toddy and drug shops, make enquiries as to the regular and punctual payments of Excise dues by the lessees and bring to the notice of the Amildar the existence of arrears or any other fact affecting the collection of revenue so that the necessary steps may be taken promptly. In this way the Amildar will be kept in touch with the progress of Excise collection, and once he is apprised of arrears in his taluk, it is his duty to take suitable action for their prompt recovery.

Financial (Separate Revenue), dated 28th February 1911.

4. Government are not in favour of investing the subordinate Excise officials with powers under the Land Revenue Code such as that of distraining the defaulter's property. Where coercive processes are necessary, they should be executed through the Amildar's subordinates in the Revenue Department, the Taluk Excise Officer and his staff being bound to comply with all reasonable requisitions for help such as bringing the Revenue officials into touch with defaulters and so forth.

2. Memo No. 7517, dated the 24th January 1911, from the Revenue Commissioner in Mysore forwarding letter No. 2147, dated the 23rd January 1911, from the Census Superintendent in Mysore requesting that early orders may be issued to the Heads of Departments to avoid transfers and gran of leave to officials of all Departments detailed for Census duty, till after the final Census.

No. Fl. 4067-117—Cen. 33-10-2, dated Bangalore, 1st February 1911.

Order thereon.—Government strongly deprecate transfers and grants of leave to officials detailed for Census duty till the dates fixed for the final enumeration and the making up of preliminary totals and despatch of the schedule books to the Census Superintendent and till they are acknowledged by him. No leave should be granted except on grounds of serious illness incapacitating the official for duty, and when such leave is granted timely intimation should be given to the local Census official superior of the absentee and the locum tenens of the latter should be detailed forthwith for Census duty in the place of the absentee.

Letter No. 3366—176, from the Inspector-General of Police in Mysore, submitting a report on the working of the Mysore Mines Regulation, 1906, during the year 1909-10:—

"I have the honor to forward herewith copy of letter No. 1551, dated the 5th instant, from the District Magistrate of Kolar, submitting the fourth annual report on the working of the Mysore Mines Regulation, IV of 1906, for the official year 1909-10.

2. It will be seen from the above report that in all 93 cases with 104 persons were filed by the Police under the Mining Regulation, as against 84 with 93 persons in the year previous.

3. As regards the protection of mining property, 56 cases were put up for trial, of which 45 ended in conviction against 39 in the year previous as detailed in the statement given in the District Magistrate's report.

4. Under Section 6, only 3 cases were prosecuted against 14 in the last year. The decrease in the number of prosecutions under this section may be attributed to the careful and vigorous working of the Regulation and to the close supervision and discretion used in launching out prosecutions thereunder. It may here be noted that electric copper wire and brass fittings, which are costly and important materials, are scattered over, and they require special protection. I would therefore urge on the attention of Government the desirability of including these materials under the definition of "Mining materials."

5. Twelve cases with 17 persons were brought to trial under Section 16 (liability of tenant or occupier of premises where mining materials are found), as against 4 cases involving 6 persons in the year previous. Of these, 6 cases with 9 persons are reported to have ended in conviction during the year under report. Though the provisions of this section are being just understood by the people, there are yet difficulties to secure convictions thereunder as it is reported to be difficult to determine who is the tenant or occupier of a mining premises. The District Magistrate has therefore enforced greater discretion being used by the Police in launching such cases.

6. Thirty-four undesirables were prosecuted and 32 were convicted against 14 and 14 in the year previous, and the total number of notices issued was 71 against 42 of the year preceding. As suggested in my letter No. 2985—292, dated 23rd December 1909, I would again urge for the very early consideration of Government the desirability of conferring on the Superintendent of Police, Kolar Gold Fields, the sole power to serve notices under Section 17 of the Regulation, as under the present system it does not ensure the absolute quitting of these undesirables from the mining area.

7. During the year under report, 41 licenses under Sections 18 and 19 (Hawkers and Pedlars) were issued and the fees realised were Rs. 179. In three cases, 3 persons were convicted for hawking without a license.

8. It is reported that the frequency of air blasts in the Champion Reefs still continues, causing much anxiety, but the cause for it and the measures adopted to prevent a recurrence have not been assigned.

9. In conclusion, I would bring to the notice of Government the following main points in which the Regulation requires amendments:—

(1) Extension of the provision of this Regulation to the Railway Premises between Bowringpet and Marikuppam.

(2) The inclusion of electric copper wires and brass fittings under the term 'Mining materials;' and

(3) Investing the Superintendent of Police with powers to serve notices on undesirables throughout the area to which this Regulation applies."

I have the honor to forward herewith the fourth annual report on the working of the Mysore Mines Regulation, IV of 1906, for the official year ending with 30th June 1910.

2. The total number of cases filed was 93 involving 104 persons, of which 70 ended in conviction of 78 persons and 23 involving 26 persons in acquittal or discharge, against 98 cases concerning 119 persons in the previous year, of which 84 ended in conviction of 93 persons and the rest in acquittal or discharge.

Proceedings of the Government of His Highness the Maharaja of Mysore,

Protection of mining property.

3. Fifty-six cases involving 61 persons were put up by the Police under the more stringent Sections 5 to 19 of the Regulation, of which 45 cases concerning 48 persons ended in conviction, against 39 cases involving 52 persons tried during the preceding year, when 39 persons in 35 cases were convicted, as shown in the comparative statement hereunder:—

(*a*) *Section 6.—Unlawful possession of mining materials.*—There were 3 cases under this section of which only one ended in the conviction of one person, against 14 of the previous year with conviction of 16 persons in 13 of them. Electric copper wire and brass fittings are costly and important materials largely scattered over the fields and need special protection. Their inclusion under the definition of "Mining material" is still being urged and deserves the favorable consideration of Government.

(*b*) *Section 7.—Licenses required for gold-dealers and goldsmiths.*—Two cases concerning 2 persons were brought to trial before the Bowringpet Taluk 2nd class Magistrate during the year, against 3 cases involving 8 persons in the previous year. Only one case ended in the conviction of one accused.

Two goldsmiths' licenses were issued till 31st December 1909, and 24 up to 30th June 1910, the amount of license fees collected being Rs. 130. Of the 26 licenses, 3 were new ones and the rest renewals of old ones. Goldsmiths' licenses are, as usual, very sparingly issued and strictly scrutinized.

No gold-dealers' licenses were issued during the year.

(*c*) *Section 11.—Goldsmiths not to deal with gold, etc., until after three days of receipt.*—No case arose under this section, which is so satisfactory as emphatically dispelling the vague alarming apprehensions entertained regarding the effect thereof.

(*d*) *Section 12.—Possession of unwrought gold.*—Only 2 cases involving 2 persons were put up and both ended in the conviction of both the accused persons.

(*e*) *Section 16.—Liability of tenant or occupier of premises where mining materials are found.*—Twelve cases involving 17 persons were brought to trial, against 4 cases involving 6 persons in the previous year. Six cases ended in the conviction of 9 persons during the year under report. The provisions of this section are beginning to be better known and understood by the people; yet there are difficulties in obtaining conviction thereunder, as it cannot be easily determined who is the tenant or occupier of a hut or mining premises which is often sub-let to various tenants, besides being so freely accessible to others who may wish to get the tenants into trouble. Great discretion is needed and enforced on the part of the Police in launching such cases.

(*f*) *Sections 17 and 19 undesirables.*—Thirty-four cases involving 34 persons were brought to trial during the year against 14 cases involving as many persons in the previous year. Of the 34 cases tried, 32 ended in conviction of 32 persons.

This section has been very useful in getting rid of the many undesirables from the Fields. In addition to getting up of history sheets of such undesirables, they are also now being photographed for purposes of identification and a good stride has been made during the year in bringing about a uniform procedure and taking steps to effectually weed them out of the Fields. That no injustice can be done to any of them, it is open to any one served with a notice after full enquiry, to present himself and prove that the data collected are erroneous, or that a mistake has been made as to his identity, or to prove by respectable persons that he is of good character. Every case is gone into very carefully and if good cause is shown the notice is at once cancelled. Following are the illustrations of the class of persons served with

Judicial and Legislative (Legislation), dated 17th February 1911.

such notices:—(i) One with 10 convictions amounting to over 7 years, (2) one with 7 convictions amounting to over 9 months, (3) three men with 6 convictions averaging 3 years and 3 months, (4) one with 5 convictions amounting to over 11 months, etc., etc. Some of them have been convicted twice and thrice for re-entry after service of notices; and as the maximum punishment under the section is only three months, steps are also taken to bring them under the security sections of the Criminal Procedure Code to get them out eventually.

The number of notices served both by the Police and the Mining Companies during the year was 71 against 42 of the preceding year.

I have again to urge the necessity of making one central authority responsible for the issue of such undesirable notices.

(g) *Sections 18 and 19.—Hawkers and Pedlars.*—Three cases involving 3 persons were dealt with during the year against none in the previous year, and all of them ended in conviction.

Eight licenses were issued up to 31st December 1909, and 36 up to 30th June 1910, or 41 in all during the year, of which 13 were new ones and the rest renewals of the old ones. The fees collected during the year amounted to Rs. 179, against Rs. 213 for 57 licenses during the previous year.

4. All the foregoing sections were put in force with great discretion and consideration and worked satisfactorily in the interests of the Mining Industry and the people.

Safety and discipline of mining employees and inspection of mines.

5. *Sections 21 to 33.*—Sixteen cases involving 21 persons were prosecuted by the Police and the Geological Department and the Superintendents of Mines for breaches of Mining Rules tending to cause accidents, etc., against 15 cases involving 21 persons in the previous year. Of the 16 cases tried 11 ended in the conviction of 16 persons.

The air blasts still continue to be frequent more particularly in the Champion Reef area and causing much anxiety.

Sanitation

6. *Section 36.*—Twenty-one cases involving 22 persons were instituted by the Kolar Gold Fields Sanitary Board and the Police during the year, against 30 cases and 32 persons in the previous year. Of these, 14 cases ended in the conviction of 14 persons.

7. On the whole, the provisions of the Regulation have been worked with great care and discrimination, without any hardship to any of the peaceful subjects of the State.

8. The introduction of the Regulation into the Railway premises between Marikuppam and Bowringpet is still being pressed for by the Mining Board. Since the passing of the new Regulation, 12 cases have been detected within the Railway premises, 3 of bar gold, 5 of sponge gold and 4 of other mining material, of which one case relating to sponge gold is reported to have been discharged by the District Magistrate, Civil and Military Station, 2 cases one of bar gold and another of mining material struck off by the Railway Magistrate, Civil and Military Station, and 3 others one of bar gold and 2 of mining material transferred to the local Kolar Gold Fields Magistrate, or in all 50 per cent of the cases detected within Railway premises have either failed or been otherwise disposed of, owing to the Regulation not being in force therein. That the actual number of cases detected is not large, is reported to be due to a great extent to the fact of the Railway being in the hands of another Police who cannot act under the Regulation. Besides those actually brought to trial, there have however, been a number of cases in which the local Police have not been able to follow up the information on the Railway line or act as promptly as desirable, for obvious reasons.

Letter No. 1637—104, dated the 3rd October 1910, from the Registrar, Chief Court of Mysore, forwarding the Report on the Administration of Criminal Justice in Mysore for the year 1909-10.

No. J. 2321-9—Cts. 92-10-3, dated Bangalore, 15th February 1911.

ORDER THEREON.—The total number of offences reported to the Magistrates during the year was 16,951 against 18,400 in 1908-09. The decrease is noticeable both in offences against the person and those against property. The number of heinous offences also shows a small decrease, though, in the district of Shimoga, serious cases of theft reported are more than twice the number for the preceding year.

Offences reported.

2. Of 31,394 persons brought to trial before the Magistrates, 21,099 or 67·21 per cent were acquitted or discharged against 68·08 per cent in the previous year. 6,497 or 20·68 per cent were convicted against 21·51 per cent in 1908-09. It is not clear from the report whether the instructions contained in para 3 of Government Order No. J. 1912-20—Cts. 85-09-3, dated the 19th January 1910, reviewing the report for 1908-09, were followed in calculating the figures for the present year.

Results of trial.

3. The District Magistrates dealt with a larger number of original Criminal cases, *viz.*, 45 against 27 in the previous year. It is hoped that they will devote more attention to this part of their duties.

Original work by District Magistrates.

4. The number of cases disposed of by the Sessions Courts at Shimoga and Mysore was 74. The *average duration was 52·8 days against* 30·89 days in 1908-09.

Work in the Sessions Courts.

5. The number of Sessions cases for trial in the original side of the Chief Court was 58, and the number disposed of was 49. The average duration was 51·28 days against 52·03 days in 1908-09.

Work in the Chief Court.

6. The Chief Court dealt with 98 Criminal appeals during the year, of which 90 were against convictions and the rest against orders of acquittal. The average duration of appeals was 59·39 days against 55·66 days in the preceding year.

Appellate work.

7. Of the 123 cases disposed of by the Courts of Session, 11 were tried with the assistance of Juries and 105 with the aid of Assessors. The prosecution was withdrawn in the remaining 7 cases. In 9 cases the presiding Judge agreed with the verdict of the Jury. The Judges agreed with the Assessors in 77 cases and differed from them in the rest.

Trial by Jury and Assessors.

8. Only 5 cases were dealt with under Section 562 of the Criminal Procedure Code and the number of persons sentenced to short periods of imprisonment (not exceeding six months) was 2,241. Government would again draw the attention of Magistrates and Courts to the clear instructions conveyed in para 6 of the Government Order of the 19th January 1910 referred to above, concerning the desirability of avoiding such short terms of imprisonment.

Punishments.

9. On account of the distress in the State in 1908-09, some of the Taluk Sheristadars and Sub-Registrars were invested with magisterial powers during that year, and their powers were withdrawn on the advent of better seasonal conditions.

10. In pursuance of Government Order No. J. 3203-14—Cts. 202-07-4, dated the 19th April 1909, ten Honorary Magistrates were appointed for each of the Towns of Bangalore and Mysore. Each Bench consists of at least two Magistrates, one of whom, the Chairman, is generally a person who has had training in Judicial procedure either as a Judicial officer or as a lawyer. Cases under the Sanitary Laws and petty cases of assault and

nuisance are at present being tried by these Magistrates. These Benches sat for a period of nearly seven months in the year and dealt with cases involving 567 persons. Government will be glad to have, in future reports, a more detailed account of the work done by these Magistrates. The thanks of the Government are due to the gentlemen who placed their honorary services at their disposal.

Government consider it desirable that all the Courts of subordinate Magistrates should be inspected by the District Magistrates or Sessions Judges at least once a year. Information about the exact number of Courts inspected and left without inspection should be given in future reports.

Circular Order.—Government have had occasion to observe in several recent instances that recommendations for filing appeals against orders of acquittal under Section 417 of the Criminal Procedure Code, are submitted just a few days before the expiry of the period of limitation, when there is not sufficient time for Government to examine the cases thoroughly. The time allowed by law for such an appeal is ample enough and there is no reason whatever why any long delay should occur in moving Government to sanction an appeal.

2. All District Magistrates are therefore requested to submit such recommendations so as to *reach* Government at least two months before the expiry of the period fixed for filing the appeals. The records sent up should invariably contain copies of such of the documents and of the statements of witnesses as may, in the opinion of the District Magistrate, be necessary for a thorough comprehension of facts of the case.

READ—

Letter No. 1585—100, dated the 28th September 1910, from the Registrar of the Chief Court, forwarding the Report on the Administration of Civil Justice in Mysore during the year 1909-10.

No. J. 2377—Cts. 91-10-3, dated Bangalore, 20th February 1911.

Order thereon.—*Original Work.*—The total number of suits filed during the year was 20,492 as against 20,443 in the year 1908-09, the slight increase being in the number of small cause suits. The disposals during the year showed a slight improvement, 19,683 suits having been disposed of, against 19,209. The improvement was, however, confined to small cause suits, the number of original suits disposed of showing a slight decrease when compared with the previous year. The arrears at the end of the year under review were larger than at the close of 1908-09 and the increase was chiefly because of the heavy files of some of the Munsiffs' Courts. Government have sanctioned the establishment of an Additional Munsiff's Court at Chikballapur for a period of one year to clear off the arrears that are reported to have accumulated in the Court of the Munsiff of that place.

2. The average duration of contested suits disposed of, both original and small cause, was slightly higher than in the year 1908-09.

3. *Execution work.*—During the year there was a perceptible decrease in the percentage of execution applications returned as wholly infructuous. The amount realised in satisfaction of decrees without resort to Execution proceedings was appreciably higher, owing apparently to the better seasonal conditions which prevailed during the year as compared with 1908-09.

4. *Appellate work in Subordinate Courts.*—The number of appeals filed and the number disposed of in the Courts of District and Subordinate Judges were nearly the same as in the previous year. The average duration of appeals in the Subordinate Judges' Courts was less than in the previous year, being 81·43 days against 94·26 days. In the District Courts, the duration was 138·81 days against 135·86 days.

5. *The Chief Court.*—There was a decrease in the total number of Civil Appeals filed and the number disposed of in the Chief Court. The decrease in disposal is partly due to the fact that there were only three Judges in the Chief Court during the year; while, in the previous year, the Court consisted of four Judges for a period of nearly 5 months. The appellate work of the Court is in a congested state and the question of giving relief to the Judges is engaging the attention of Government. At the same time, Government would be glad if the matter is taken into consideration by the Judges of the Chief Court and such steps as may be considered suitable taken to reduce the quantity of work in arrears by increasing the number of disposals.

6. *Inspection work.*—Inspection work was satisfactory and 17 out of the 22 Civil Courts in the State were inspected during the year either by the Chief Judge or by the District Judges.

7. *The Central Nazareth.*—Owing to numerous complaints against the Central Nazareth system which has been in operation in the towns of Bangalore, Mysore and Shimoga, Government have, in their Order No. J. 1904-5—Cts. 256-08-4, dated 17th January 1910, approved of certain changes which will meet the objections urged against the system. The rules framed to give effect to the above change are under the consideration of Government and will be issued at an early date.

Proceedings of the Government of His Highness the Maharaja of Mysore, Judicial and Legislative (Registration), dated 1st February 1911.

READ—

Letter No. 564, dated the 24th September 1910, from the Inspector-General of Registration in Mysore, submitting a report on the working of the Registration Department during the year 1909-10.

No. J. 2167-75—REGIS. 11-10-2, DATED BANGALORE, 1ST FEBRUARY 1911.

ORDER THEREON.—There was a slight decrease in the number of documents registered during the year as compared with the previous year, the number being 86,254 as against 89,473. This is attributed to the generally favourable character of the seasonal conditions of the year after the distress that prevailed in 1908-09 and to the prevalence of plague and cholera in certain taluks of the Bangalore and Mysore Districts. The decline is observed in both classes of documents, *viz.*, those which are compulsorily registerable and those whose registration is optional; but whereas the fall in the case of the former is only 2·6 per cent, the latter shows a decline of 5·0 per cent.

2. Consequent on the decrease in the number of documents registered and the reduction in the fees for searches and for the grant of incumbrance certificates that came into operation from the beginning of the year, the income of the Department fell from Rs. 1,72,008-5-2 in the preceding year to Rs. 1,62,342-13-10, while the total expenditure showed a slight increase owing to the higher scale of pay sanctioned to the attenders and peons of the Registration offices.

3. Five prosecutions for false personation were instituted during the year, two of which ended in conviction and the other three in acquittal. Two cases which were pending disposal at the close of 1908-09 are reported to have been pending even at the close of the year under review, one before the Assistant Sessions Judge of Mysore, and the other before the Sub-Divisional Magistrate, Dodballapur Sub-Division. The Inspector-General is requested to submit a separate report as to the causes of this great delay in the disposal of these cases.

4. The inspection work during the year was not so satisfactory as in the preceding year. As against 2 offices that were left uninspected in 1908-09, there were ten such offices in the year under report. Out of 7 offices in the District of Kadur, 3 were left uninspected.

5. With reference to the suggestion of the Inspector-General of Registration contained in para 11 of the report regarding the conversion of all the *ex-officio* offices into special Sub-Registry Offices, it has to be observed that the principles upon which separate Sub-Registry Offices are to be opened in the State, have been stated in Government Proceedings No. J. 1343-53—Regis. 11-06-2, dated the 19th November 1906, and Government do not see sufficient grounds for departing from the rule then laid down.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Letter No 258, dated the 17th August 1910, from the President of the District Board, Kolar District, requesting with reference to Government Proceedings No. 10158-86—L. B. 216-08-13, dated the 9th May 1910, to be informed of the procedure to be adopted where a sum of less than Rs. 10 remains to be drawn out of the amount of an audited bill for the travelling allowance of non-official members of Local Boards, after issuing cheques to individual members for sums of Rs. 10 and above due to such members, as according to rules no cheques can be issued for amounts of less than Rs. 10.

No. 6560-8—L. B. 63-10-3, DATED BANGALORE, 4TH FEBRUARY 1911.

ORDER THEREON.—The practical difficulties referred to by the President of the Kolar District Board arise (1) either when the amount of the travelling allowance payable to a particular member is less than Rs. 10, the total of the bill being, however, more than Rs. 10, or (2) when the total of travelling allowance bill itself is less than Rs. 10.

2. In the first of the two cases referred to above, the travelling allowances of all those members to each of whom a sum of less than Rs. 10 is due may be clubbed together if the total amounts to Rs. 10 or above and a cheque may be drawn for the aggregate amount in favor of the President himself or the Taluk Amildar as the case may be. Where the allowances referred to do not amount to Rs. 10 or more, they may be clubbed with the travelling allowance of another member claimed in the same bill, which is more than Rs. 10 and a cheque drawn for the aggregate amount as stated above. The cheque so drawn may be cashed soon after the parties concerned present themselves for payment or ask the amount to be sent by money order. The payment of a *portion* of one bill by cheque and of the *remainder* in cash out of the permanent advance though apparently easy, will cause confusion in the accounts, as there will be no separate sub-voucher in support of the charge in the imprest account and it is not therefore a proper course to adopt. Similarly it would be objectionable to club a *portion* of one bill with the amount of another bill and draw a cheque for the total amount, though this is another way in which a sum of less than Rs. 10 included in a consolidated travelling allowance bill may be drawn.

3. In the second case, where the total of the bill itself is less than Rs. 10, a single cheque may be drawn for more than one bill and the procedure prescribed above may be observed. As this may sometimes involve a certain amount of hardship, payment of bills of this kind may, if necessary, be made out of the permanent advance and the advance adjusted in due course.

4. A few illustrations are appended to make this order clear.

ILLUSTRATION I.

A, B, C and D are members of a District Board. They claim travelling allowance for the month of July as below, and a consolidated bill is passed for the claim:—

	Rs.		Rs.
A	12	C	10
B	11	D	9

In this case, the amount payable to D may be clubbed with that payable to any one of the rest and a cheque issued for the amount so combined.

ILLUSTRATION II.

A, B, C and D are members of a District Board. They claim travelling allowance for July and a consolidated bill is passed as in Illustration I. For October they claim travelling allowance as shown below and a consolidated bill is passed for the claim for this month:—

	Rs.		Rs.
A	15	C	10
B	12	D	8

Local Fund and Sanitary (Local Boards), dated 4th February 1911.

If the amounts due to D for the travelling allowance of July and October be clubbed together, the total exceeds Rs. 10 and permits a cheque being drawn for the same but the amounts being portions of two different bills they should not be clubbed and a cheque drawn for the total amount.

ILLUSTRATION III.

A, B, C and D, members of a Taluk Board, claim travelling allowance as follows for the months of July and August. A consolidated bill is passed for each month as shown below.—

	July.			August		
	Rs	a	p	Rs	a	p
A	1	8	0	1	8	0
B	2	0	0	2	0	0
C	2	8	0	2	8	0
D	3	0	0	3	0	0
Total ...	9	0	0	9	0	0

The total amount of each of these bills is below Rs. 10. A cheque may be drawn for the total amount of the two bills or the amount of each bill may be paid out of the permanent advance and the advance adjusted.

Letter No 1312, dated the 26th July 1910, from the Revenue Commissioner in Mysore, submitting, with reference to Government Proceedings No. 4951-4—L B. 75-07-2, dated the 28th November 1907, and No. 11764-7—L. B. 75-07-4, dated 12th May 1908, his opinion as regards the principles to be recognized and acted upon in regulating the award of prizes at cattle shows, the arrangements to be made thereat and the lines on which reports of cattle shows should be drawn up.

No. 7007-24—L. B. 189-09-3, DATED BANGALORE, 22ND FEBRUARY 1911.

ORDER THEREON.—The Government generally concur with the Revenue Commissioner and prescribe the following rules for regulating cattle shows and the award of prizes thereat and for drawing up reports of the same.

1. The management of cattle shows shall be left chiefly to a committee consisting of the leading non-officials and officials of the district or taluk in which the fairs or shows are held, guided and assisted by the Deputy Commissioner and his subordinate officers, and preferably to the Agricultural Association of the district or taluks, or in the absence of the Agricultural Associations, to a Co-operative Credit Society, if there is one such at the place, and if the Society is willing to undertake the management of the show.

2. The cost of prizes to be awarded and of arranging the show and making needful sanitary arrangements shall be met out of private subscriptions, if any, and fees on cattle admitted to the show.

3. Where the income from the sources referred to above is not sufficient to meet the cost the excess will be met from the District Funds.

In the case of shows held in connection with jatras in which fees are levied and credited to the funds of temples under the Muzrai management, the temples concerned shall contribute half the excess cost which shall however not exceed its realizations from fees, etc., collected at the jatra.

4. The entire cost of the shows shall in the first instance be met from the District Funds to which the subscriptions, fees on cattle admitted to the show and contributions should be credited In framing their budgets, the District Boards should make due provisions on the side of receipts as well as of expenditure.

5. The maximum and minimum rates of fees chargeable for cattle admitted to the show shall be as follow:—

Maximum	Minimum
(1) Eight annas for every pair of big bullocks (2) Four annas for every pair of small bullocks (3) Four annas for a single bull or cow or other cattle competing for prizes	One anna on every head of cattle

The rates of fees to be levied shall be left to the decision of the Committee or Association or Society mentioned in Rule 1.

6. The rates of fees levied in one year shall not be altered in subsequent years without adequate notice and without the previous sanction of Government.

7. Three months prior to every show a short notice of the same containing the number and value of prizes to be awarded and the conditions of award and the dates on which the shows are to be held shall be published in English and Kannada in the *Mysore Gazette*. Copies of this notice may also be sent to the Collectors of the neighbouring British Districts for publication in their District Gazettes free of charge.

Local Fund and Sanitary (Local Boards), dated 22nd February 1911.

8. Within the expiry of three months after the holding of the show a clear and concise report of the show (not exceeding five pages foolscap in manuscript) under the heads noted in the margin shall be submitted to Government through the President of the District Board and the Revenue Commissioner in Mysore, and these reports with the order of the Government thereon will be published in the *Mysore Gazette* for the information of the people in English and Kannada.

1. Committee of management.
2. Number of cattle exhibited.
3. Number of cattle selected.
4. Classification of cattle according to breeds, size, age, etc.
5. Number of prizes awarded.
6. Place of cattle show and its suitability as regards water-supply and sanitary requirements.
7. Total receipts, *viz.*, from fees, private subscriptions, contributions.
8. Total expenses incurred and how met.
9. Concluding remarks, including a comparison of the results of the show with those of the preceding year.

9. Whenever possible the Inspector of Cattle Diseases, one of the Assistant Veterinary Inspectors shall help the management in judging the prize, cattle, etc., and also to deliver lectures in the vernacular to the assembled raiyats on the methods to be adopted for improving the breed of cattle and arresting the spread of cattle diseases.

10. Photos of the cattle winning the prizes shall be taken and submitted to Government with the report referred to in para 7 *supra*.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Letter No 2245, dated the 14th November 1910, from the Sanitary Commissioner, submitting the Plague Administration Report for the year 1909-10.

No. 6825—SAN. 77-10-4, DATED BANGALORE, 15TH FEBRUARY 1911.

ORDER THEREON.—*Administration and staff.*—As in the previous year, the plague operations in the districts were directed by the Deputy Commissioners assisted by the District Medical and Sanitary Officers. The Amildars assisted by the Police were in charge of the operations in their respective taluks. In the Cities of Bangalore and Mysore, the Presidents of the respective Municipalities and in the Kolar Gold Fields, the President of the Sanitary Board, assisted by the Health Officers in these places looked after the operations. Towards the latter part of the year, a full-time District Sanitary Officer was appointed for the Mysore District. The special plague establishments in the Bangalore and Mysore Cities and in the Kolar Gold Fields continued to exist during the year. Temporary establishments were entertained wherever necessary, for disinfection, the guarding of health camps and hospital duties and were dispensed with as soon as the need for their services ceased. The temporary plague supervisors employed on frontier protection duty in the taluks of Heggaddevankote, Chamrajnagar and Malvalli, in the Mysore District, were replaced by duly qualified Sanitary Inspectors. As qualified men were not available for employment in other places, a dozen students have been sent to Madras for undergoing training in the Sanitary Inspector's Class.

2. *Attacks and deaths.*—The plague attacks and deaths during the year numbered 5,182 and 3,688 against 6,339 and 4,464 during the previous year, showing a decrease of 1,157 and 776 respectively. The figures were the lowest recorded in any year since the first outbreak of plague in the State except during the year 1905-06. The attacks and deaths per thousand of population were 0·95 and 0·67 as against 1·16 and 0·82, respectively, in the previous year. The largest number of attacks and deaths recorded in any one month was 1,075 and 767 respectively in September 1909, and the smallest 24 and 14 in May 1910. The Mysore City suffered the most with 1,934 cases and 1,381 deaths and the Kolar District the least with 16 cases and 15 deaths. The Kolar Gold Fields area enjoyed complete immunity during the year as in the previous year in spite of its large floating population. The highest mortality was among persons between twenty and forty years of age and the lowest among those above sixty years.

3. *Source of infection.*—The Sanitary Commissioner complains of the difficulty in obtaining prompt information of the first cases of plague or of the death of rats to enable him to take the necessary steps for the suppression of the disease before it spreads. The attention of the Deputy Commissioners is invited to this matter and it is hoped that they will bring home to the village officials the need for furnishing such information promptly in accordance with the Sanitary Commissioner's instructions referred to in para 22 of his report.

4. *Preventive measures.*—As in former years, the measures adopted to combat the disease were evacuation, disinfection, the destruction of rats and inoculation. The value of prompt evacuation has been well recognised and appreciated by the people but it is said that its benefits are sometimes lost by the surreptitious visits paid by the people to their infected houses. It behoves the Sanitary and Revenue authorities to advise and warn the people against this practice explaining to them how such surreptitious visits are fraught with risk of infection by rat fleas. In some places in the malnad owing to want of suitable camping grounds, the people are said to prefer to remain in their own houses and take the risk rather than succumb to dampness and cold in temporary camps in the surrounding swamps. The attention of the Sanitary Commissioner and the Deputy Commissioners is invited in this connection to Government Proceedings No. 2804-20—San. 91-08-4, dated the 21st September 1909, and they are requested to take action to provide suitable camping grounds wherever the want of such is felt.

Local Fund and Sanitary (Sanitary), dated 15th February 1911.

5. During the year, 325,963 rats were destroyed in the State at a cost of Rs. 7,164 against 225,116 rats during the previous year at a cost of Rs. 5,457, the average cost per rat being $4\frac{1}{5}$ and $4\frac{1}{4}$ pies respectively. Of the total number of rats destroyed, 209,299 were in the Bangalore City. It is observed that in the Mysore City the progress of rat destruction was not satisfactory and that in rural areas the measure was not carried on to any appreciable extent owing to the inherent disinclination of the people to catch and kill rats.

6. The number of persons inoculated in the State during the year was 72,880 as against 10,378 in the previous year. The chief feature in the year's campaign against the plague was the attention given to inoculation. Vigorous steps were taken in the Mysore City and nearly 28,000 persons were inoculated in a single season. Government record with appreciation the help rendered by several philanthropic citizens of Mysore, Bangalore and other places in carrying out inoculation on a large scale and in making it popular with the masses.

7. *Plague Hospitals.*—The number of admissions to the Plague Hospital in Bangalore was 64 and to that in Mysore 218 and out of these, the number of patients who recovered was 23 in the former and 87 in the latter. The percentage of recoveries to admissions was 35·94 and 39·9 respectively.

8. *Expenditure.*—The total expenditure in connection with plague preventive measures during the year was Rs. 34,535 as against Rs. 35,105 during the previous year.

Proceedings of the Government of His Highness the Maharaja of Mysore,

READ—

Correspondence ending with the following letter No. 5388-379, dated the 13th December 1910, from the Inspector-General of Education in Mysore, regarding the filling up of the place of the Assistant Deputy Inspector of Sanskrit Schools :—

" With reference to Government Proceedings No 3114—Edn. 92-10-2, dated 29th September 1910, stating that it is undesirable to abolish the post of Assistant Deputy Inspector of Sanskrit Schools and asking me to nominate a suitable officer for the place, I have the honor to inform you that the office of the Assistant Deputy Inspector of Sanskrit Schools consisted of the following establishment :—

		Rs.
1	Assistant Deputy Inspector of Sanskrit Schools, C-IV (50—$\frac{1}{2}$°—100) ...	50
1	Gumasta	15
1	Deputy gumasta grade (10—1—12)	10
2	Peons on Rs. 6 each	12
	Office contingencies	5
	Total ...	92

2. After the transfer of Mr. S. Venkataramu Sastri, the late Assistant Deputy Inspector of Sanskrit Schools, to the Maharaja's College, Mysore, as ordered in Government Order No. 1839-10—Edn. 435-06, dated 26th August 1907, the two gumastas were made to work in the office of the Inspector, Bangalore Circle, as the four clerks under him were unable to cope with the heavy work of the office, and the gumastas have been working there ever since. The two peons of the Assistant Deputy Inspector have been working in my office. The provision for the pay of the Assistant Deputy Inspector and the office contingencies, which had been retained till the end of the last official year, was repeated in the current year's budget prepared by this office, but it has been omitted in the printed budget by the Financial Department. Under these circumstances it will be necessary to order the necessary provision to be included in the budget of 1911-12.

3. In this connection, I beg to add that I shall spare the services of the two peons who are now attached to my office, to work in the office of the Assistant Deputy Inspector of Sanskrit Schools, which will be newly formed. As for gumastas, the Circle Inspector pleads inability to spare them, as their services are badly required in his office. The work in his office has grown so enormously of late that even with the help of the six clerks he has not been able to provide for certain necessary items of work, such as the maintenance of a register of furniture in Anglo-Vernacular Schools, register of travelling allowance and arrears of pay bills, summary of inspection reports, etc. For these reasons it will be quite necessary to permit the Circle Inspector to retain the services of the two gumastas referred to permanently in his office and employ two new gumastas in the Sanskrit Assistant Deputy Inspector's office.

4. The Sanskrit Assistant Deputy Inspector's office was formerly located in the Old Palace in Bangalore, and consequently no house rent was found necessary. According to the present arrangement the headquarters of the Assistant Deputy Inspector have to be fixed at Hassan, and house rent consequently will be necessary. The Deputy Inspector of Hassan has got to inspect about 170 schools in a year and he finds this task almost impossible. Efficiency in inspection cannot be expected when the officer has got so many schools to inspect. It is therefore proposed to entrust the inspection of 50 or 60 Kannada Schools in the District of Hassan to the new Sanskrit Assistant Deputy Inspector in addition to the 40 Sanskrit Schools scattered over the different parts of the Province. This arrangement will not only give relief to the Deputy Inspector of Hassan, but will also provide sufficient work for the Assistant Deputy Inspector.

I may here point out that it is neither advisable nor practicable to have any Kannada Schools in the Mysore District under the administrative control of the Sanskrit Assistant Deputy Inspector.

5. For the reasons stated already it will be necessary to make additional provision under the following items for the Sanskrit Assistant Deputy Inspector's office, and I request that Government may be pleased to sanction the provision and order its inclusion in the next year's budget :—

		Rs.
1	Sanskrit Assistant Deputy Inspector in class C-IV (50—$\frac{1}{2}$°—100) ...	50
1	Gumasta	15
1	Deputy gumasta (10—1—12)	10
	House rent	8
	Office contingencies	5
	Total ...	88 a month or 1,056 a year.

6. When these proposals are sanctioned, I will submit proposals for filling up the appointment "

Local Fund and Sanitary (Education), dated 9th February 1911.

No. 6629-30—Edn. 92-10-4, dated Bangalore, 9th February 1911.

Order thereon.—In the circumstances stated by the Inspector-General, a provision of Rs. 63, per mensem or Rs. 756 per annum will be included in the Education State Fund budget for 1911-12 for the following charges in connection with the appointment of the Sanskrit Assistant Deputy Inspector :—

		Rs.
1.	Pay of Sanskrit Assistant Deputy Inspector in class C-IV (50—$\frac{1}{2}$—100) ...	50
2.	Rent for the office	8
3.	Contingencies	5
	Total ...	63 per mensem,
	or	756 „ annum

2. The two gumastas and two peons of the Sanskrit Assistant Deputy Inspector's office who are now temporarily working in the offices of the Bangalore Circle Inspector and the Inspector-General of Education should be reverted to their original places when the appointment of the Assistant Deputy Inspector of Sanskrit Schools is filled up.

3. The Inspector-General's proposal to entrust the inspection of 50 or 60 Kannada Schools in the Hassan District to the new Assistant Deputy Inspector of Sanskrit Schools in addition to the 40 Sanskrit Schools in other parts of the State is approved. The headquarters of the new Assistant Deputy Inspector will be fixed at Hassan.

4. If the clerical establishment now allotted to the Inspector of Schools of the Bangalore Circle is insufficient, the Inspector-General may submit suitable proposals for additional hands with a proposition statement through the Comptroller.

No. G. 4611-59
G. M. 105-10-14

GOVERNMENT OF H. H. THE MAHARAJA OF MYSORE,
GENERAL AND REVENUE SECRETARIAT.
Dated Bangalore, 8th February 1911.

CIRCULAR.

It is reported that, owing to the increasing demands of indenting officers on the Stationery Depot, it is difficult to gauge the annual requirements and that in consequence supplemental purchases have had to be made involving much inconvenience and expenditure. Government desire to impress upon all the indenting officers the necessity for drawing up their indents according to their requirements and for enforcing all possible economy in the use of the articles obtained by preventing any wilful wastage or extravagance.

2. In the case of officers mentioned in Rule 21 of the Stationery Rules laid down in G. O. No. G. 6011-60, dated the 27th May 1904, the indents should, in accordance with Rule 24, be carefully checked by the countersigning officers concerned with the above object in view.

3. Supplemental indents should, as far as possible, be avoided.

4. The Superintendent of Stationery should also take care to see that stationery articles are issued from the Depot strictly in accordance with Rule 64 of the Stationery Rules.

By Order,

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Heads of Departments.
The Deputy Commissioners of Districts
The Superintendent of Stationery in Mysore.

GENERAL AND REVENUE SECRETARIAT.
Dated Bangalore, 21st February 1911.

OFFICIAL MEMORANDUM.

With a view to regulate the periodical destruction of records in all Government offices where no specific rules are observed at present, and to secure uniformity of practice, the Heads of Departments are requested to frame suitable rules for adoption in their offices and submit them for the approval of Government. In framing such rules the practice obtaining in the department or office and the standing orders and rules in force, if any, should be taken as the basis. The rules in force in corresponding offices in British India may, with advantage, be also consulted.

By Order,

C. S. BALASUNDARAM IYER,
Offg. Secy. to Govt., Gen. & Rev. Depts.

To—The Heads of Departments (except the Inspector-General of Registration) and Deputy Commissioners of Districts.

Petition registered No. D. 1114, dated the 17th December 1910, from K Raghavacnar of Kallukunte Agrahar, Hoskote Taluk, offering to deposit a sum of Rs. 3,000 at present to be supplemented by a further sum of Rs 1,000 at the rate of interest prescribed in Government Order dated the 12th February 1908 as revised by Government Order No. Fl. 473-503— G F. 15-09-2, dated the 15th July 1909, as an endowment for conducting certain services during the car festival of Sri Ranganathaswami at Kallukunte Agrahar which takes place on the Full-moon day in the month of Phalguna of every year and for feeding the Brahmins visiting the place on the occasion.

No. 2074-7—MUZ. 323-10-2, DATED BANGALORE, 17TH FEBRUARY 1911.

ORDER THEREON.—The object of Raghavachar being of a religious and charitable nature deserving of encouragement as contemplated in Rule III of the Government Notification No. 4007—G. F. 184-06, dated the 12th February 1908, as revised by Government Order No. Fl. 473-503—G. F. 15-09-2, dated the 15th July 1909, the Government are pleased to sanction the request made by K. Raghavachar and to permit him to deposit at present a sum of Rs. 3,000 with power to supplement it by a further sum of Rs. 1,000, the rate of interest on the deposit being more than half per cent in excess of the rate allowed by the Government of India on their securities. The rate allowed for the present will be 4 per cent.

2. The Comptroller to the Government is requested to issue needful instructions to the Deputy Commissioner, Treasury Department, Bangalore District, to receive the present deposit of Rs. 3,000 and a further deposit of Rs. 1,000 under the foregoing para and to get a document executed by the depositor in the form prescribed in Government Order No. Fl. 432-72—G. F. 15-09-1, dated the 15th July 1909. One single agreement covering all payments will be sufficient.

3. The Government further direct that the interest on the deposit be paid to the donor during his life-time and on his death to Mr. N. V. Narasimma Iyengar, Advocate, Bangalore City, as prayed for by the petitioner. These should maintain regular accounts and make them available for inspection by Government officers and also submit to Government an annual report with an abstract of accounts.

Proceedings of the Government of His Highness the Maharaja of Mysore, Muzrai, dated 18th February 1911.

BEFORE THE GOVERNMENT OF HIS HIGHNESS THE MAHARAJA OF MYSORE.

MUZRAI APPEAL NO. 5 OF 1910.

Appellants	*Vs.*	Respondent
1. Kadambi Tirunaraniengar 2. Parpathegar Tirunaraniengar		Kalamegham Alasingrachar.

Subject.

Appeal against the order of the Deputy Commissioner, Mysore District, directing that respondent Kalamegham Alasingrachar should sign the Kharadu or accounts of the Sri Narasimhaswami temple at Melkote.

Facts of the case.

The respondent's ancestors were, under a Sannad, appointed by the late Maharaja Krishnaraja Wodeyar Bahadur, III, to the post of Addika of the Sri Narasimhaswami, Varahakshetra and other temples at Melkote. The respondent's right to the office was recognized in 1898. At the revision of the establishments of the temples at Melkote in 1899-1900, this post was done away with and the respondent was provided with another office and his pay was also increased. He having represented that he had, by the abolition of the Addika post, lost his *Miras* it was directed that he should get his mamul *Miras*. When subsequently he prayed for permission to discharge the duties of Addika and the prayer was recommended by the Deputy Commissioner, Government in their Order No. 296—M. F. 150-92, dated 23rd August 1901, decided that, as the appointment was deliberately abolished at the revision of the Tasdik Patti as unnecessary, it was undesirable to re-open the question. Respondent's application for a review of this order was also rejected and endorsement No. 3319, dated 7th March 1905, was issued to him. The respondent having again moved the local authorities for permission to do the duties of Addika, the Deputy Commissioner in compliance with this request has passed the order now appealed against Kadambi Tirunaraniengar, 1st appellant, claims that his ancestors were also appointed to the post of Addika in the Sri Narasimhaswami temple and that therefore he is also entitled to sign the accounts.

Parpathegar Tirunaraniengar (2nd appellant) of the said temple objects to respondent signing the accounts and prays for the cancellation of the order.

The parties and their Advocates were heard before Government on the 27th January 1911.

Decision.

Kadambi Tirunaraniengar not having represented his case to the Depty Commissioner his appeal to Government will not be taken into consideration now.

2. Parpathegar Tirunaraniengar has no right to appeal. But as the Deputy Commissioner's order is in conflict with the Government Order declining to revive the office which was abolished at the revision of establishment and as there is no reason to revive the post at this distance of time, Government hereby set aside the Deputy Commissioner's order.

ORDER NO. 2106—MUZ. 631-09-7, DATED BANGALORE, 18TH FEBRUARY 1911.

Copy of the above is forwarded to the Deputy Commissioner, Mysore District, together with the vernacular records received with his letter No. 237, dated 14th November 1910.

Letter No. 562, dated the 11th November 1910, from the Muzrai Superintendent in Mysore and President of the Ayurvedic College Committee, submitting a report on the working of the Ayurvedic College at Mysore for the second half of 1908-09 and 1909-10

No. 2142-3—MUZ. 268-10-2, DATED BANGALORE, 22ND FEBRUARY 1911.

ORDER THEREON.—Recorded.

2. The College began to work on the 1st January 1909 with ten scholarship-holders and a private student who are reported to have made fair progress. But it is disappointing that none of these, who were awarded scholarships at the second year's entrance examination, joined the institution.

3. A sum of Rs. 1,469-0-9 was spent on the institution during 1908-09 and an amount of Rs. 3,230-9-9 during the year 1909-10.

4. On the subject of settling how the services of those who pass out of the College may be utilized and proper accommodation for the school, the Muzrai Superintendent may submit his proposals separately.

Proceedings of the Government of His Highness the Maharaja of Mysore, Muzrai, dated 22nd February 1911.

READ—

Letter No. 392, dated 19th April 1910, from the Deputy Commissioner, Chitaldrug District, reporting that the funds of some Muzrai Institutions amounting in all to Rs. 4,713-8-1 are deposited in the Government Savings Bank, that the Comptroller to Government has refused to sanction interest on these amounts on the ground that they are not Puduvat Funds of temples, and requesting that the Comptroller may be instructed to treat them as Puduvat Funds, and adding that sanction may be accorded to the deposit in Savings Bank or to investment in Government of India Securities of the sum of Rs 16,000 the cash balance at the credit of the Muzrai institutions in the district.

2. Correspondence ending with letter No. 4, dated 5th July 1910, from the same officer furnishing particulars of the sum of Rs. 4,713-8-1.

No. 2124-33—MUZ. 638-09-4, DATED BANGALORE, 22ND FEBRUARY 1911.

ORDER THEREON.—The Comptroller is right in not allowing interest on deposits in the Savings Bank of temple funds which are not Puduvat amounts. If the Deputy Commissioner will intimate to the Comptroller which of the amounts in the Savings Bank are Puduvat Funds, the Comptroller will, allow interest on them. The Pass Books in these cases may be endorsed "Puduvat Fund" for the sake of identification. Other amounts should be withdrawn from Savings Banks and credited to Muzrai Funds.

2. It need not follow that the temples should be losers by the money being thus withdrawn from Savings Bank and credited to Muzrai Funds. The money can be invested in Government of India Securities. If a single institution has not a large amount itself, the funds of a number of institutions may be lumped together and invested and the interest accruing thereon proportionately divided.

3. Deputy Commissioners should in communication with the Comptroller, where necessary, find out what amount is available at the credit of each institution and after retaining a reasonable sum for any expenditure likely to be incurred recommend the investment of the balance in Government Securities.
